ANNUAL INDEX

January 15—December 15, 1997

SUBJECT INDEX

Adolescent medicine
Keeping adolescents healthy
Part 1: Cigarettes, drugs, alcohol, and teens. 2/28:56-83
Part 2: Beyond the birds and the bees: Talking to teens about sex. 4/15:103-129
Part 3: What's normal and what's not: Teen mental health. 6/15:83-109
Part 4: Getting teens fit and well-nourished: Shaping the future. 7/15:73-96
Latest standards for hypertension in teens. 3/15:121-135

AIDS
AIDS therapy: Hitting a moving target. 7/15:43-70

Allergy
Allergic rhinitis: Taming the troubled nose. 4/15:51-60
Who needs allergy testing? 9/15:169-183

Alternative medicine
Part 1: Exploring the other health care systems. 7/15:134-169
Part 2: Mind-body medicine: Expanding the health model. 9/15:126-145
Part 3: Herbal medicine: What works, what's safe. 10/15:48-68
Part 4: Manual therapy: Hands-on healing. 12/15:68-90

Blood transfusion
Making donated blood safer—and less necessary. 6/15:181-196

Cancer
Breast cancer update: Progress and conflict. 6/15:110-142
Gynecologic cancer: What to watch for, when to refer. 11/30:15-42
The Sisterhood. 6/15:143-144

Cardiology
ACE inhibitors and beta-blockers: Casting a wider net. 12/15:92-123
Aspirin and the heart. 10/15:153-162
Cardiovascular risk reduction: What really works? 5/30:47-60
Chest pain with normal coronary arteries. 3/15:43-60
Indecision is the enemy. PTCA or thrombolysis in MI. 9/15:86-115
Syncope: A systematic search for the cause. 3/15:136-152
Who can benefit from carotid endarterectomy? 11/30:58-75

Case & comment
A cautionary tale: Bitten by a dog in Kathmandu. 5/15:212-216
A change of pace. 4/15:225-229
A death and a lawsuit. 8/15:220
A dehydrated and lethargic patient. 1/30:81-82
A diagnosis that's hard to swallow. 2/28:119-120
A face afire. 12/15:129
A gut feeling. 4/15:224-225
A pain in the neck. 12/15:133-134
A rare case of cancer metastasis. 7/15:187-188
A spreading nodular rash in an infant. 5/15:209-210
A surprising cause of weight gain. 10/15:165-166
A systematic approach to a medical emergency. 9/15:184-186
A T_4 level of zero! 3/30:105-106
A teenage boy with really bad stomachaches. 7/15:192-194
A 20-year-old rash. 11/30:76-80
A warm elbow with dry, cracked skin. 11/15:152-154
A woman who keeps falling down. 1/30:79-80
A woman with jaundice and fever. 10/15:163-165
Achy, tired, and an elevated ESR. 12/15:129-133
All that glistens is not gout. 6/15:217-218
An elderly woman whose teeth fell out. 6/15:224
An increased need for insulin during a trip to Paris. 6/15:221-222
An unexpected gastrointestinal obstacle. 7/15:188-192
An unlikely cause of swollen parotid glands. 11/30:76
Carrying too much baggage? 1/30:77-79
Chest pain and no cardiac risk factors: 8/15:210-215
Cracking the fracture mystery. 11/15:154-159
Diabetic neuropathy or something else? 6/15:218-221
Frightening tear, stitches spared. 8/15:209-210
Going to extremities. 1/15:145
Hypertension, diabetes, and headache. 5/15:210-212
Hypertension that won't go away. 10/30:79-80
Hypoglycemia. 3/30:106-107
I'm here for a referral. 1/15:143-144
Left flank pain in a woman with diabetes. 1/15:139-143
Life-threatening anaphylaxis from an injectable dye. 3/15:183
Low-back pain and a tongue mass. 9/15:186-189
Microalbuminuria in a 21-year-old man. 3/15:184-186
My morning is shot. 6/15:222-223
Near-fatal arrhythmias in a step-down nurse. 8/15:220-222
Recurrent UTI in an elderly man. 4/15:230-232
Seizures but a normal EEG. 12/15:133
Sore throat, fatigue, and edema. 10/15:165
The bloody tip of the iceberg. 9/15:194-196
The dreaded list. 2/28:122-125
The glycosylated hemoglobin dilemma. 4/15:229-230
This condition predates the AIDS epidemic. 9/15:189-194
What went wrong after this transplant? 2/28:121-122
Who needs knees? 3/15:181-182
Worsening headache and fevers that spike. 5/15:216-218

Chronotherapy
Chronotherapy: Working with the body's rhythms. 9/30:10-28

Clinical clips
A gene that accounts for some age-related macular degeneration. 12/15:145
Acetaminophen and HIV don't mix. 5/15:222
All that palpitates is not panic. 4/15:243
An ectopic pregnancy? 8/15:236
Another look at salt and blood pressure. 11/30:88
Another strike against smoking. 4/15:244
Aspirin: Good for women with heart disease. 2/28:126
β-Blockade saves lives in congestive heart failure. 10/15:171
Better prognosis for heart failure with atrial fibrillation. 1/30:84
C. pneumoniae attacks the institutionalized elderly. 5/15:224
Calcium antagonists: Not created equal? 4/30:56
Caution urged for thrombolytic therapy in stroke. 10/30:82
Clinical and economic efficacy of a new asthma drug. 3/30:108
Delaying diabetic nephropathy in normotensive patients. 12/15:146
Diagnosing appendicitis with helical CT. 2/28:126
Dieting and psychiatric disorders. 9/30:64
Don't get mad—stay healthy. 1/15:146
Does HRT affect the reliability of mammography? 6/15:228
Eating better, getting fatter. 6/15:228
Erratic plasma glucose levels: A hazard to the elderly? 12/15:146
Estrogen therapy helps delay tooth loss. 10/15:171-172
E. coli 0157:H7—A stranger no more. 5/15:224
Estrogen therapy slows restenosis. 1/30:84
Extrapyramidal signs in Alzheimer's disease. 1/15:146
Familial cardiovascular disease: What role for homocysteine? 12/15:146
Fluoroquinolones less effective against gonorrhea. 5/15:222-224
Gauging thrombolysis risk. 8/15:236
Healing kids' trauma. 9/15:208
Heart attacks and vitamins. 9/30:64
How safe are enteric-coated and buffered aspirin? 1/15:146
Immunotherapy: Little help in pediatric allergic asthma. 3/15:195-196
Is intensive insulin safe in type II diabetes? 4/30:56
Kidneys at risk NSAIDs at fault. 1/30:84
Moderate drinking lowers risk of peripheral arterial disease. 3/30:108
Methotrexate and lung injury. 11/15:160
More reasons to take prenatal vitamins. 9/30:64
Nonulcer dyspepsia plus *H. pylori*: Endoscopy or treatment. 4/15:243
Optimizing the emergency treatment of acute asthma. 10/15:172
Osteoarthritis of the knee: Knowledge is power. 11/30:88
OTC eyedrops as a cause of conjunctivitis. 2/28:126
Otitis media treatment: A one-shot deal? 3/15:196
Panic or palpitation? 8/15:236
Patients with acute MI: Late for a very important date. 9/15:207-208
Pediatric meningitis: A major epidemiologic change. 12/15:145
Polio: The end is near. 5/15:222
Racial differences in age at menopause. 3/15:196
Recreational exercise reduces plasma viscosity. 3/30:108
Rubella vaccination is not linked to arthropathy in women. 11/15:160
Sertraline for premenstrual dysphoric disorder. 12/15:145
Sizing up syncope. 9/15:208
Smoking and coronary revascularization don't mix. 4/15:243-244
Still prescribing antibiotics for colds? 11/30:88
Streamlining pneumonia treatment. 10/30:82
Stress, depression, and HIV: A damaging collaboration. 5/15:224

The everyday benefits of cholesterol reduction. 3/15:195
The reproducibility of home BP monitoring. 10/30:82
Thrombolysis in the elderly: Time to reconsider. 10/15:172
Thumbs down to prophylaxis for recurrent otitis media. 9/15:207
Transdermal nicotine helps control ulcerative colitis. 6/15:228
Tumor necrosis factor antagonists: Hope for patients with RA. 11/15:160
Up with fiber, down with glycemic load to prevent diabetes. 9/16:207
Vancomycin-resistant staph: First in Japan, now here. 10/15:171
Which patients with GERD get Barrett's esophagus? 3/15:195
Whoa! Propranolol for hand tremor. 4/30:56
Why the poor outcomes in diabetic patients with MI? 4/15:244

Computer chips
On the Internet: First you crawl. 2/15:16
The interactive way to manage cancer pain. 2/15:16
What, doctor, do you really need to know? 2/15:16

Computers in clinical care
Appendix: Finding your way. 2/15:143-148
Can you live without a handheld computer? 2/15:114-129
How computers enrich patient education. 2/15:88-113
Is telemedicine ready for prime time? 2/15:64-87
Making clinical software work for you. 2/15:54-63
Shopping for a personal computer. 2/15:130-136
The physician's guide to the Internet. 2/15:26-53

Dermatology
A photo-quiz: Some common—and uncommon—causes of hair loss. 12/15:50-67
Are warts and children inseparable? 4/15:163-184
Helpful clues to common rashes. 4/30:9-28
It's always poison ivy time. 6/15:31-52
Managing acne in adult women. 5/30:30-43
Today's strategies for bacterial skin infections. 3/30:78-94

Diagnostics
Promises and pitfalls of home test devices. 10/15:125-150

Doctor/patient communication
Strategies and skills for breaking bad news. 6/15:61-72

Drugs
Are your patients using OTCs wisely? 3/15:63-74
Medication errors: Rx for disaster. 4/30:30-46
Rational use of the newer antidepressants. 3/30:49-77
Using macrolide antibiotics. 9/15:49-74

Emergency medicine
Anaphylaxis in children. 8/15:161-183
How to treat the poisoned patient. 8/15:90-113
Improving outcome after brain trauma. 8/15:36-71
Pulmonary embolism: Common, elusive, and deadly. 8/15:75-88
Recognizing a testicular emergency. 8/15:117-135
Removing a foreign body from soft tissue. 8/15:203-204
When and how to retrieve foreign bodies. 8/15:186-200
When minutes count: Responding to ob/gyn emergencies. 8/15:138-157

Endocrinology
Thyroid disease: When to screen, when to treat. 3/30:18-47

FlowCharts
Diagnosing common rashes. 4/30:26-27
Diagnosing COPD. 1/30:44-45
Initial management of pulmonary embolism. 8/15:82-83
Initial management of traumatic brain injury. 8/15:64
Managing acute scrotal pain. 8/15:134-135
Managing benign breast disorders. 4/15:144-145
Managing diverticular disease. 7/15:176-177
Managing sinusitis. 2/28:110-111
Managing sports-related concussion. 8/15:58
Managing thyroid disease. 3/30:40-41

Gastroenterology
A commonsense approach to lactose intolerance. 4/15:185-195
Diverticulitis: Current management strategies. 7/15:170-186
Pancreatitis: Diagnostic and therapeutic interventions. 6/15:200-216

Geriatrics
Overcoming communication disorders in the elderly. 1/30:55-58

Gynecology
Current approaches to endometriosis. 1/15:34-44
Helping infertile patients. 10/15:103-121
How to provide postcoital contraception. 4/15:81-85
PID: Suspect more, treat more, hospitalize less. 7/15:110-129
Uterine fibroids: Treat—or ignore? 1/15:48-55

Hypertension
Getting to the source of refractory hypertension. 10/30:14-39

Imaging
Wise use of high-tech imaging. 1/30:59-72

Infectious disease
Another hazard in food: Helminthic parasites. 5/15:60-71
Bracing for the cold and flu season. 9/30:47-62
How to recognize and treat tick-borne infections. 5/15:184-204
Management and prevention of varicella-zoster. 12/15:31-48
Multidrug-resistant *S. pneumoniae:* What can be done? 1/15:20-33
Office management of chronic infections. 5/15:78-94
Parvovirus B19: How serious are the risks? 5/15:155-161
Resurgent TB: Stopping the spread. 5/15:97-118
Successful immunization for children and adults. 5/15:124-146
The rising tide of foodborne and waterborne infections. 5/15:30-59
Wise antibiotic use in the age of drug resistance. 5/15:165-178

Medicine in the news
A closer eye on food safety. 5/15:18
A helping hand for quadriplegics. 11/5:23
A new approach to sickle cell crisis. 11/5:26
A new *E. coli* vector. 9/15:16
A new heart failure study. 10/30:11
A promising new treatment for MS. 12/15:11
A quartet of new cancer organizations. 2/28:15
A (small) dent in ischemic heart disease. 4/15:23
A step forward for gender-based medicine. 4/15:23
A timely update on diabetes. 2/28:15
After a stroke: A stimulating report. 2/28:16
After the drive-through delivery. 4/15:27
Antibiotics online. 10/30:12
Anticoagulation guidelines. 8/15:12
Aspirin is in need of a bigger label. 3/30:12
Back to 1918. 6/15:15
Bacteria and the female bladder. 12/15:14
Bad berries, again. 5/15:23
Breaking news and top stories. 6/15:12-13
BreastAlert for early tumors. 12/15:12-14
Cancer in the new millennium. 7/15:11-12
Cardiac pearls. 8/15:22
Cervical cancer and smoke. 11/30:11
Chlamydia: The benefits of screening. 5/15:19-23
Clinical trials on the Web. 10/15:18
Computers could speed new drugs to market. 2/15:25
DES hazards: Not for women only. 9/30:7-8
Dispatches from the infectious disease wars. 10/30:10-11
Doctors may be lining up to go on-line. 2/15:21
Dog bytes. 8/15:22
Doxycycline: Revisiting an old standard. 12/15:11-12
Ethnicity and codeine. 11/15:19
Epilepsy: A new global initiative. 9/15:20
Expanding immunization for hepatitis B. 9/30:8
Fast info on vaccines. 5/15:19
Fear of treating pain. 7/15:12-13
Finding hepatitis C requires looking for it. 5/15:19
Follow the Web to a rural practice site. 2/15:22
Food supplements for teens. 9/15:26
From the CDC. 7/15:18
From the experts: New recommendations. 9/15:18-19
From the Mayo Clinic: Eruption of the fen-phen fury. 9/15:15
Getting a better grip on *S. pneumoniae.* 1/15:15
Glue instead of stitches. 8/15:19
Going by the book. 2/15:25
Going digital with dictation. 2/15:22
Health help on the Web. 6/15:14
Heart attack alert: Need for speed. 8/15:10-11
Help asthmatic teens breathe easier. 4/15:27
Help for the First Ears. 11/30:11
Help for "morning after" emergencies. 8/15:12-19
Helpful news for women. 7/15:13
Herbal preparation in clinical trial. 12/15:12
Here comes the sun. 6/15:14
High cholesterol: Underscreened, undertreated. 2/28:14
Hormone replacement for men? 11/15:26
How to earn good marks for diabetes care. 3/30:13
Keeping up with your patients. 1/15:19; 3/15:15; 3/30:12-13
Kids like me—with OCD. 7/15:12
Lab report: 1/15:19; 3/15:16; 4/15:24
Learning more about bladder control. 3/15:14
Leukemia and power lines: An answer at last? 9/15:15-16
Living with anxiety. 11/30:8
Looking for sick moms. 1/15:15
Making every day a safe Labor Day. 11/15:18-19
Mammograms in the 40s: A dissenting opinion. 10/15:13-14
MedEc on-line. 9/15:16
Merck Manual—for the home. 10/30:12
Mind, body, and spirit. 9/15:25
More notes on the troubled food supply. 10/15:16-18
Multidrug-resistant *Salmonella* arrives. 6/15:15
New Alzheimer's plaque identified. 9/15:20
New guidelines on colorectal Ca screening. 3/15:13-14
Of helmets and heads. 8/15:11
Pancreatitis prescriptions. 9/15:26
Penicillin-nonsusceptible pneumococci: Harbinger from New York City? 6/15:14
Primary care on the Web. 9/30:8
Professional Web sites at no cost. 12/15:14
Prophylaxis in HIV infection: New guidelines issued. 10/15:14-16
Prostate cancer guide. 10/30:11
Protecting skaters' wrists. 11/15:23
Repeated reminders to avoid repetitive strain. 2/15:25
Salmonella sprouts from an unlikely source. 5/15:23
Secondhand smoke and the heart. 7/15:11
63 million-asleep at the wheel. 9/15:23
Sound bites from the literature. 4/15:22

Special thanks for saving lives. 3/15:14-15
Targeting river blindness. 10/15:18
TB trouble in the Smoky Mountains. 11/30:11
Thalidomide: Is it safe this time? 11/30:7-8
The *Patient Care* Web site. 4/15:27
The picture of health, circa 1997. 1/15:14-15
The search for the rheumatoid arthritis gene. 11/15:18
The x-ray files: Soon to be alien? 2/15:22
Thoughts on dying. 10/30:12
Thyroid cancer: Fallout from the 50s. 9/30:7
To sleep, perchance to be studied. 2/28:14
Too much serotonin: Not a good thing. 8/15:11-12
Top 15 infectious diseases—United States, 1995. 2/28:16
Two new colon cancer studies. 11/30:8-11
Understanding Lou Gehrig's disease. 2/28:16
Walking and talking don't always mix. 4/15:27
Warning: Misuse of insulin by diabetic teens. 9/15:19
Weighing in on the Web. 7/15:13
What's new with knees. 11/15:23-26
Will a computer help you make clinical decisions? 2/15:21
Will the pump replace the needle in type II diabetes? 3/15:15
Worried about the Web? 9/15:20-23

Musculoskeletal disorders
A systematic approach to acute shoulder pain. 11/15:34-51
Effective approaches to common foot complaints. 3/15:158-180
Handling common wrist complaints. 11/15:56-72
Investigating the subtle and obvious causes of hip pain. 11/15:76-99
Pinpointing the cause of acute knee pain. 11/15:100-117
Rheumatoid arthritis: What's new in treatment. 3/15:81-99
Talking with the physical therapist. 1/15:82-83
Today's management of the acute ankle. 11/15:118-134
What to do for the painful shoulder. 1/15:56-82

Neurology
Be on the alert for sleep apnea. 10/30:41-54
How to prescribe a good night's sleep. 2/28:87-100
Living with MS: The outlook improves. 1/15:87-113
Needed: A prompt response to acute ischemic stroke. 2/28:34-55
Update on Parkinson's disease. 5/30:12-25

Nutrition
A concise guide to nutrition counseling. 4/30:47-53

Otolaryngology
Sinusitis: Acute, chronic—and manageable. 2/28:105-117

Patient education
Try the town-meeting approach to patient education. 7/15:99-108

Patient information sheets
A good reason to have sex—and some bad ones. 4/15:130
About endometriosis. 1/15:47
Anaphylaxis and your child. 8/15:184-185
Basic exercises for the wrist. 11/15:141
Clear those sinuses! 2/28:118
Easy ways to avoid tick bites. 5/15:205-206
Exercises for the injured ankle. 11/15:149-150
Exercises for the injured knee. 11/15:143
Exercises for the shoulder. 11/15:137-138
First aid for a choking child. 8/15:208
Fragile X syndrome and your child. 9/15:165-166
Help for your runny nose. 4/15:61
How to examine your breasts. 4/15:153-154
How to get a good night's sleep. 2/28:102
How to work comfortably at a computer. 2/15:139
If you have chest pain. 9/15:117-118
Keeping your food healthy. 5/15:72
Keeping your overseas trip safe. 4/15:76-77
Please talk to me. 2/28:84
Some advise for using herbs and dietary supplements. 10/15:77
Standard wrist isometric exercises. 11/15:142
Stay away from poison ivy! 6/15:55-56
Stopping foot ulcers before they start. 5/15:95
Taking over-the-counter drugs safely. 3/15:77
Why and how to protect your kids from toys and food. 8/15:207

Pediatrics
Infections in children: How many are too many? 6/15:156-178
Meeting the challenge of fragile X syndrome. 9/15:146-162
Strep throat in 1997. 10/30:56-75

Practical briefings
A confusing message about aspirin in stroke. 8/15:29
Are environmental factors overemphasized in hip fractures? 11/15:32
Beta-blockers after MI: Seriously underused. 2/28:29
Cholesterol reduction and diabetes: The answers are in. 6/15:26-28
Domestic violence: Detection is key. 8/15:29-35
Exercising to keep weight off: How much and how hard. 11/30:12
Great news: Breast cancer mortality is down. 1/15:13
Have we turned the corner on AIDS? 5/15:26-29
Low molecular weight heparins come into their own. 12/15:22-24
Mammograms in 40-year-olds: What to do? 3/30:14-17
More optimism about PSA testing, please. 1/30:19
Options for postmenopausal women with hypercholesterolemia. 9/15:36-45
Quadriceps weakness: The chicken or the egg in knee OA? 11/15:31-32
The benefits of lowering "average" cholesterol. 9/30:9
Throwing the book at Alzheimer's disease. 7/15:37-39
Urinary incontinence in women: Think of surgery sooner. 10/15:30-33
When emotions—and BP—run high. 4/15:44-47
When to hospitalize for pneumonia? 3/15:34-38
Winning at losing: Some optimism about weight loss maintenance. 10/30:8

Psychiatry
Mental health benefits in the era of managed care. 9/15:76-84
Screening for psychiatric disorders. 11/30:45-56

Pulmonary disease
Asthma care: New treatment strategies, new expectations. 10/15:82-100
The challenge of COPD
Part 1: Step by step through the workup. 1/30:20-52
Part 2: Therapeutic strategies that work. 3/15:101-118
Part 3: Managing the special problems of chronic lung disease. 4/15:87-98

Smoking cessation
Using nicotine replacement therapies. 9/30:31-44

Travel medicine
Spanning the globe—safely. 4/15:62-75

Urology
Complicated UTI
Part 1: Targeting the pathogens. 4/15:212-223
Part 2: Underlying disorders and their treatment. 4/15:196-208

Women's health
Benign breast disorders: First rule out cancer. 4/15:140-151
Cystitis: Not always a simple problem. 10/15:34-47
DHEA replacement after menopause? Too early to tell. 6/15:147-155

CONSULTANT AND CONTRIBUTOR INDEX

LEGEND: C CASE & COMMENT

A
ABDULLAH G: AIDS therapy: Hitting a moving target. 7/15:43-70
ADAMS DM: Parvovirus B19: How serious are the risks? 5/15:155-161
ADAMS HP: Needed: A prompt response to acute ischemic stroke. 2/28:34-55
ALSHULER L: Part 3: Herbal medicine: What works, what's safe. 10/15:48-68
AMINOFF MJ: Update on Parkinson's disease. 5/30:12-25
AMMAN ST: Pancreatitis: Diagnostic and therapeutic interventions. 6/15:200-216
AMSTERDAM EA: ACE inhibitors and beta-blockers: Casting a wider net. 12/15:92-123
Chest pain with normal coronary arteries. 3/15:43-60
APFELBAUM M: Chest pain with normal coronary arteries. 3/15:43-60
AUGENBRAUN M: Office management of chronic infections. 5/15:78-94

B
BADER T: When minutes count: Responding to ob/gyn emergencies. 8/15:138-157
BARNETT HJM: Who can benefit from carotid endarterectomy? 11/30:58-75
BARRETT J: Mental health benefits in the era of managed care. 9/15:76-84
BENJAMIN SA: Alternative medicine
Part 1: Exploring the other health care systems. 7/15:134-169
Part 2: Mind-body medicine: Expanding the health model. 9/15:126-145
Part 3: Herbal medicine: What works, what's safe. 10/15:48-68
BENSON H: Alternative medicine, Part 2: Mind-body medicine: Expanding the health model. 9/15:126-145
BERGFELD J: Pinpointing the cause of acute knee pain. 11/15:100-117
BERMAN B: Alternative medicine, Part 1: Exploring the other health care systems. 7/15:134-169
BING ML: Chronotherapy: Working with the body's rhythms. 9/30:10-28
BISNO AL: Today's strategies for bacterial skin infections. 3/30:78-94
BLACK HR: A change of pace. 4/15:225-229 (C)
Getting to the source of refractory hypertension. 10/30:14-39
BLANK BH: Recognizing a testicular emergency. 8/15:117-135
BLOCK M: Rational use of the newer antidepressants. 3/30:49-77
BODURKA DC: Gynecologic cancer: What to watch for, when to refer. 11/30:15-42
BOWER PJ: Part 4: Manual therapy: Hands-on healing. 12/15:68-90
BOWES WA: When minutes count: Responding to ob/gyn emergencies. 8/15:138-157
BRAVERMAN LE: Thyroid disease: When to screen, when to treat. 3/30:18-47
BRESSLER PE: A dehydrated and lethargic patient. 1/30:81-82 (C)
BRIDEAU DJ Jr: Using nicotine replacement therapies. 9/30:31-44
BROADHEAD WE: Screening for psychiatric disorders. 11/30:45-56
BROWN LK: Be on the alert for sleep apnea. 10/30:41-54
BRUNET ME: A systematic approach to acute shoulder pain. 11/15:34-51

BRUNET ME: What to do for the painful shoulder. 1/15:56-82
BUCHANAN RL: The rising tide of foodborne and waterborne infections. 5/15:30-59
BUCKMAN R: Strategies and skills for breaking bad news. 6/15:61-72
BURNS RS: Update on Parkinson's disease. 5/30:12-25
BUSTER JE: DHEA replacement after menopause? Too early to tell. 6/15:147-155

C

CADY B: Breast cancer update: Progress and conflict. 6/15:110-142
CANNON, RO III: Chest pain with normal coronary arteries. 3/15:43-60
CAPLAN LR: Needed: A prompt response to acute ischemic stroke. 2/28:34-55
CASSON PR: DHEA replacement after menopause? Too early to tell. 6/15:147-155
CASTELLI WP: Cardiovascular risk reduction: What really works? 5/30:47-60
CAVANAUGH RM JR: Keeping adolescents healthy, Part 3: What's normal and what's not: Teen mental health. 6/15:83-109
CELLI BR: The challenge of COPD
Part 1: Step by step through the workup. 1/30:20-52
Part 2: Therapeutic strategies that work. 3/15:101-118
Part 3: Managing the special problems of chronic lung disease. 4/15:87-98
CERDA JJ: Diverticulitis: Current management strategies. 7/15:170-186
CETRON MS: Multidrug-resistant *S. pneumoniae:* What can be done? 1/15:20-33
CHANG DJ: Achy, tired, and an elevated ESR. 12/15:129-133 (C)
CHICOYE LS: Keeping adolescents healthy, Part 4: Getting teens fit and well-nourished: Shaping the future. 7/15:73-96
CHI-LUM BI: The physician's guide to the Internet. 2/15:26-53
CHOO PW: Management and prevention of varicella-zoster. 12/15:31-48
CHRISTENSON JC: Spanning the globe—safely. 4/15:62-75
CLARK LR: Keeping adolescents healthy, Part 2: Beyond the birds and the bees: Talking to teens about sex. 4/15:103-129
COHALL AT: Keeping adolescents healthy
Part 1: Cigarettes, drugs, alcohol, and teens. 2/28:56-83
Part 2: Beyond the birds and the bees: Talking to teens about sex. 4/15:103-129
Part 3: What's normal and what's not: Teen mental health. 6/15:83-109
Part 4: Getting teens fit and well-nourished: Shaping the future. 7/15:73-96
COHEN BA: Are warts and children inseparable? 4/15:163-184
COHEN M: Wise antibiotic use in the age of drug resistance. 5/15:165-178
COMERCI GD: Keeping adolescents healthy, Part 1: Cigarettes, drugs, alcohol, and teens. 2/28:56-83
COOLEY DA: Who can benefit from carotid endarterectomy? 11/30:58-75
COSENTINO A: The challenge of COPD
Part 1: Step by step through the workup. 1/30:20-52
Part 2: Therapeutic strategies that work. 3/15:101-118
Part 3: Managing the special problems of chronic lung disease. 4/15:87-98
COSTANTINO SR: Obese and in the hospital. 10/15:9
CRUMP WJ: Is telemedicine ready for prime time? 2/15:64-87
CUNNINGHAM CK: Using macrolide antibiotics. 9/15:49-74
CUSH JF: Who needs knees? 3/15:181-182 (C)

D

DAHL MV: This condition predates the AIDS epidemic. 9/15:189-194 (C)
DALE SJ: Effective approaches to common foot complaints. 3/15:158-180
DAMEWOOD M: Current approaches to endometriosis. 1/15:34-44
DAVID DJ: Effective approaches to common foot complaints. 3/15:158-180
DAVIDSON J: A dehydrated and lethargic patient 1/30:81-82 (C)
DAVILA GW: Gynecologic cancer: What to watch for, when to refer. 11/30:15-42
DAVIS NM: Medication errors: Rx for disaster 4/30:30-46
DEFILIPPO J: Wise use of high-tech imaging. 1/30:59-72
DETRE T: Mental health benefits in the era of managed care. 9/15:76-84
DEYE DL: How computers enrich patient education. 2/15:88-113
DICKEY NW: Are your patients using OTCs wisely? 3/15:63-74
DiMAGNO E: Pancreatitis: Diagnostic and therapeutic interventions. 6/15: 200-216
DLUHY RG: Getting to the source of refractory hypertension. 10/30:14-39
DRISCOLL CE: Removing a foreign body from soft tissue. 8/15:203-204
DUFFEY TP: Investigating the subtle and obvious causes of hip pain. 11/15:76-99
DUKE JA: Part 3: Herbal medicine: What works, what's safe. 10/15:48-68
DURRANI J: An unexpected gastrointestinal obstacle. 7/15:188-192 (C)
DWORKIN HJ: Thyroid disease: When to screen, when to treat. 3/30:18-47

E

EAKER E: A woman with jaundice and fever. 10/15:163-165 (C)
ELLIOTT WJ: A change of pace. 4/15:225-229 (C)
ELLIOT-MULLENS DR: A woman with jaundice and fever. 10/15:163-165 (C)
ELLIS SG: Indecision is the enemy: PTCA or thrombolysis in MI. 9/15:86-115
ELSON B: Making clinical software work for you. 2/15:54-63
EPSTEIN WL: It's always poison ivy time. 6/15:31-52
ERICKSON TB: How to treat the poisoned patient. 8/15:90-113
ERICSSON CD: The rising tide of foodborne and waterborne infections. 5/15:30-59
ERSHLER WB: Complicated UTI, Part 2: Underlying disorders and their treatment. 4/15:196-208
ETHRIDGE CP: Handling common wrist complaints. 11/15:56-72
EVANS WP: Breast cancer update: Progress and conflict. 6/15:110-142
EVERY N: Indecision is the enemy: PTCA or thrombolysis in MI. 9/15:86-115

F

FALK GW: A diagnosis that's hard to swallow. 2/28:119-120 (C)
FARLEY MM: Multidrug-resistant *S. pneumoniae:* What can be done? 1/15:20-33
FAUGHNAN J: Making clinical software work for you. 2/15:54-63
FEIG SA: Breast cancer update: Progress and conflict. 6/15:110-142
FIEL S: The challenge of COPD
Part 1: Step by step through the workup. 1/30:20-52
Part 2: Therapeutic strategies that work. 3/15:101-118
Part 3: Managing the special problems of chronic lung disease. 4/15:87-98
FIORICA JV: Benign breast disorders: First rule out cancer. 4/15:140-151
FISH JE: Asthma care: New treatment strategies, new expectations. 10/15:82-100
FRANKEL M: Needed: A prompt response to acute ischemic stroke. 2/28:34-55
FREEDMAN DO: Spanning the globe—safely. 4/15:62-75
FRIED S: Cracking the fracture mystery. 11/15:154-159 (C)
FRIEDMAN EM: When and how to retrieve foreign bodies. 8/15:186-200
FRISHMAN WH: Chronotherapy: Working with the body's rhythms. 9/30:10-28
FULLER PG: Keeping adolescents healthy, Part 1: Cigarettes, drugs, alcohol, and teens. 2/28:56-83
FUSELIER HA Jr: Cystitis: Not always a simple problem. 10/15:34-47

G

GANTZ NM: Complicated UTI, Part 1: Targeting the pathogens. 4/15:212-223
GARCIA CR: Uterine fibroids: Treat—or ignore? 1/15:48-55
GELENBERG AJ: Rational use of the newer antidepressants. 3/30:49-77
GEORGITIS JW: Allergic rhinitis: Taming the troubled nose. 4/15:51-60
GERBER MA: Strep throat in 1997. 10/30:56-75
GINDLER J: Successful immunization for children and adults. 5/15:124-146
GLOWNIAK JV: The physician's guide to the Internet. 2/15:26-53
GO MF: Office management of chronic infections. 5/15:78-94
GOLDBERG M: A pain in the neck. 12/15:133-134 (C)
A surprising cause of weight gain. 10/15:165-166 (C)
Seizures but a normal EEG. 12/15:133 (C)
GOLDFRANK LR: How to treat the poisoned patient. 8/15:90-113
GOLDSMITH G: Recognizing a testicular emergency. 8/15:117-135
GONZALEZ-ROTHI RJ: Resurgent TB: Stopping the spread. 5/15:97-118
GORDON JS: Alternative medicine, Part 2: Mind-body medicine: Expanding the health model. 9/15:126-145
GOSBEE J: The physician's guide to the Internet. 2/15:26-53
GUIN JD: It's always poison ivy time. 6/15:31-52

H

HAAS LB: The glycosylated hemoglobin dilemma. 4/15:229-230 (C)
HACKER SM: Today's strategies for bacterial skin infections. 3/30:78-94
HAGERMAN PJ: Meeting the challenge of fragile X syndrome. 9/15:146-162
HALE P: Making clinical software work for you. 2/15:54-63
HAMATY M: Diabetic neuropathy or something else? 6/15:218-221 (C)
HAMPSON NB: Pulmonary embolism: Common, elusive, and deadly. 8/15:75-88
HANNO PM: Cystitis: Not always a simple problem. 10/15:34-47
HANSON V: How to provide postcoital contraception. 4/15:81-85
HARGARTEN S: Spanning the globe—safely. 4/15:62-75
HEMMING VG: Bracing for the cold and flu season. 9/30:47-62
HERSHMAN E: Investigating the subtle and obvious causes of hip pain. 11/15:76-99
HINES C Jr: Diverticulitis: Current management strategies. 7/15:170-186
HOCHBAUM SR: When minutes count: Responding to ob/gyn emergencies. 8/15:138-157
HOFF GL: Aspirin and the heart. 10/15:153-162

HOLLAND PV: Making donated blood safer—and less necessary. 6/15:181-196
HRUSHESKY WJM: Chronotherapy: Working with the body's rhythms. 9/30:10-28
HUERTER CJ: Helpful clues to common rashes. 4/30:9-28
HULL AE: The rising tide of foodborne and waterborne infections. 5/15:30-59
HUPERT N: Syncope: A systematic search for the cause. 3/15:136-152

I

IRELAND ML: Pinpointing the cause of acute knee pain. 11/15:100-117

J

JACOBS J: Alternative medicine, Part 1: Exploring the other health care systems. 7/15:134-169
JACOBSON MS: Keeping adolescents healthy, Part 4: Getting teens fit and well-nourished: Shaping the future. 7/15:73-96
JESUDASS SW: A rare case of cancer metastasis. 7/15:187-188 (C)
JIMISON HB: How computers enrich patient education. 2/15:88-113
JOFFE A: Keeping adolescents healthy, Part 2: Beyond the birds and the bees: Talking to teens about sex. 4/15:103-129
JOHNSON RJ: Today's management of the acute ankle. 11/15:118-134
JUNEJA R: The glycosylated hemoglobin dilemma. 4/15:229-230 (C)

K

KAHN G: How computers enrich patient education. 2/15:88-113
KAISER HB: Allergic rhinitis: Taming the troubled nose. 4/15:51-60
Who needs allergy testing? 9/15:169-183
Asthma care: New treatment strategies, new expectations. 10/15:82-100
KALINER MA: Allergic rhinitis: Taming the troubled nose. 4/15:51-60
Who needs allergy testing? 9/15:169-183
KALISH R: How to recognize and treat tick-borne infections. 5/15:184-204
KAPOOR WN: Syncope: A systematic search for the cause. 3/15:136-152
KARIG AW: Are your patients using OTCs wisely? 3/15:63-74
KARMARKAR S: An unexpected gastrointestinal obstacle. 7/15:188-192 (C)
KAVANAUGH AF: Who needs knees? 3/15:181-182 (C)
KELLY JP: Improving outcome after brain trauma. 8/15:36-71
KISABETH R: Promises and pitfalls of home test devices. 10/15:125-150
KNITTLE B: Chest pain and no cardiac risk factors: 8/15:210-215 (C)
KNOB R: An unexpected gastrointestinal obstacle. 7/15:188-192 (C)
KONETY BR: Complicated UTI, Part 2: Underlying disorders and their treatment. 4/15:196-208
KOTTKE TE: Is telemedicine ready for prime time? 2/15:64-87
KRAMER JM: The physician's guide to the Internet. 2/15:26-53
KRESCH AJ: Current approaches to endometriosis. 1/15:34-44
KROENKE K: Screening for psychiatric disorders. 11/30:45-56
KUBITZ ER: The bloody tip of the iceberg. 9/15:194-196 (C)
KULIG K: How to treat the poisoned patient. 8/15:90-113
KUPIN WL: Cystitis: Not always a simple problem. 10/15:34-47

L

LABKOFF SE: Can you live without a handheld computer? 2/15:114-129
LAM M: A face afire. 12/15:129 (C)
A spreading nodular rash in an infant. 5/15:209-210 (C)
A 20-year-old rash. 11/30:76-80 (C)
This condition predates the AIDS epidemic. 9/15:189-194 (C)
A photo-quiz: Some common—and uncommon—causes of hair loss. 12/15:50-67
LANDRY GL: Keeping adolescents healthy, Part 4: Getting teens fit and well-nourished: Shaping the future. 7/15:73-96
LaRUSSA P: Management and prevention of varicella-zoster. 12/15:31-48
LEAPE LL: Medication errors: Rx for disaster. 4/30:30-46
LEVITT MD: A commonsense approach to lactose intolerance. 4/15:185-195
LEVY J: Diabetic neuropathy or something else? 6/15:218-221 (C)
LEVY RL: A cautionary tale: Bitten by a dog in Kathmandu. 5/15:212-216 (C)
A woman who keeps falling down. 1/30:79-80 (C)
Hypertension, diabetes, and headache. 5/15:210-212 (C)
LEWIS EJ: A face afire. 12/15:129 (C)
A photo-quiz: Some common—and uncommon—causes of hair loss. 12/15:50-67
A spreading nodular rash in an infant. 5/15:209-210 (C)
This condition predates the AIDS epidemic. 9/15:189-194 (C)
LEWIS EJ: A 20-year-old rash. 11/30:76-80 (C)
LEWIS ZA: Another hazard in food: Helminthic parasites. 5/15:60-71
LICAMELE WL: Keeping adolescents healthy, Part 3: What's normal and what's not: Teen mental health. 6/15:83-109
LIPKIN M Jr: Strategies and skills for breaking bad news. 6/15:61-72
LOGGIE JMH: Latest standards for hypertension in teens. 3/15:121-135
LORLERTRATNA N: Using macrolide antibiotics. 9/15:49-74
LOWE NJ: Managing acne in adult women. 5/30:30-43

M

MACINDOE JH II: Thyroid disease: When to screen, when to treat. 3/30:18-47
MacKAY T: PID: Suspect more, treat more, hospitalize less. 7/15:110-129
MADDOX M: Handling common wrist complaints. 11/15:56-72
MAHAJAN S: A systematic approach to a medical emergency. 9/15:184-186 (C)
MAIBACH HI: It's always poison ivy time. 6/15:31-52
MAKRILAKIS K: A change of pace. 4/15:225-229 (C)
Hypertension that won't go away. 10/30:79-80 (C)
MALONE DA Jr: Rational use of the newer antidepressants. 3/30:49-77
MANABE YC: Worsening headache and fevers that spike. 5/15:216-218 (C)
MANDEL E: Overcoming communication disorders in the elderly. 1/30:55-58
MARKUS SJ: An elderly woman whose teeth fell out. 6/15:224 (C)
MASIH RB: A rare case of cancer metastasis. 7/15:187-188 (C)
MASTROIANNI L Jr: When minutes count: Responding to ob/gyn emergencies. 8/15:138-157
Helping infertile patients. 10/15:103-121
McCRACKEN GH: Multidrug-resistant *S. pneumoniae:* What can be done? 1/15:20-33
METZGER D: Current approaches to endometriosis. 1/15:34-44
MILLER LG: Are your patients using OTCs wisely? 3/15:63-74
MOREL V: Helping infertile patients. 10/15:103-121
